

CONTINUOUS BELT SYSTEM

CLAMPS AND TIGHTENING SYSTEMS › CONTINUOUS TAPE CLAMP

Clamping system for ventilation pipes for air or fume extraction or under light pressure, very versatile due to the possibility of independently and promptly deciding the diameter to be tightened by making the clamp yourself.

Available materials:

- AISI430 tape, 25 meter roll, 9 mm band width
-
- AISI316 tape, roll of 25 metres, width 9 mm
