

Ear band

CABLE TIES AND TIGHTENING SYSTEMS › HEADBAND WITH Ears

Clampable cable ties with 1 or 2 ears, ensure a strong and long-lasting tightening; it is the most economical system for permanently tightening small and medium diameter pipes, in just a few seconds. For frequent assembly, a pneumatic tool is available. Band with smooth interior. Rounded edges to avoid damage. Pinchable clamp for low and medium pressure. The two-ear clip does not have a screw. Assembly is quick, simple and safe by squeezing the ears which allow you to generate a better and constant holding force.

Benefits overview

- ☐ Economical and simple alternative to worm hose clamps
- ☐ Quick and easy installation
- ☐ Ideal for narrow spaces
- ☐ For the definitive fixing of connection pipes
- ☐ For assembly, normal pliers are sufficient
- ☐ Extended clamping range Applications
- ☐ For flexible hoses carrying compressed air or fluids
- ☐ OEM
- ☐ Maintenance, repair and overhaul
