

WIRE CLIP CLOCKWISE

CABLE TIES AND TIGHTENING SYSTEMS › CLAMP RIDES THE WIRE

CLOCKWISE "WIRE-STRAPPER" HOSE CLAMP
FOR PIPES WITH EXTERNAL SPIRAL OR METAL CRIMPING,
IDEAL FOR CONSTANT TIGHTENING OF THE PIPE TO THE
CONNECTING TUBE.

Used for low pressure air/gas flexible conduits, even for large
pipes.

TORRO cable tie made in Germany with high performance and
sealing **BAND 12mm**

The screw/cassette system's design ensures high tightening
torques and satisfies the most demanding applications; the band's
edges are rounded to prevent damage to the pipes.

standard supply entirely in W2 AISI 430 steel

supply on request entirely in W4 AISI 304 steel

- Asymmetrical case to prevent the drawer from twisting when closing
- uniform distribution of forces and assembly safety Screw with integrated guide collar
- ease of assembly thanks to the collar integrated into the screw that guides the strap tape
- Material and clamping range indicated on the tape
- error prevention Asymmetric drawer position
- uniform distribution of contact pressure
- better efficiency Smooth or internally printed ribbon
- optimal protection of the pipe thanks to the rounded edge band

**WHEN REQUESTING A QUOTE IT IS NECESSARY TO KNOW THE STEP
OF THE SPIRAL OF THE PIPE ON WHICH THE CLAMP IS MOUNTED**
