

LOK SMC-T for BSPT/NPT male metric tube thermocouples

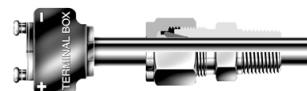

FITTINGS FOR THE CHEMICAL AND FOOD INDUSTRY › S-LOK STAINLESS STEEL FITTINGS › S-LOK FITTINGS

The LOK SMCT thermocouple connector has no shoulder or sizing angle inside assembly; features allow the thermocoupler to pass through the threaded end of the fitting.

Example: SMCT 8-8N-S6 to order thermocouple connector

Outside diameter 1/2"× 1/2" NPT S316

Assembly instructions

1. Place the length of the thermocouple threaded through the fitting thread end and hold it to prevent it from moving during assembly.
2. Rotate the nut 1-1/4 after tightening it with a wrench while holding the body with a spare wrench for sizes 1/4" (6 mm) or larger.
