

ABRASIVE TUBE/6 SANDBLASTER

HOSES › Flexible rubber hoses for suction of highly abrasive solids

Spiral and corrugated rubber hose suitable for heavy duty suction and delivery of highly abrasive fluids such as: SAND, GLASS, CERAMIC or METAL GARNISH.

Working temperature: -40° +70° C

- Smooth abrasion-resistant beige para underlayer
- High resistance synthetic textile reinforcement with metal coil and copper cord for electrostatic currents
- Black NR/SBR rubber cover resistant to abrasion and atmospheric agents
- Wavy black surface

Packs of 20 and 40 metres
Other diameters on request
