

SWEPPER PIPE

HOSES › Flexible rubber hoses for suction of highly abrasive solids

Wear-resistant vacuum hose with steel wire spiral for STREET CLEANING MACHINES.

Technical description:

Extremely wear-resistant corrugated rubber hose with rubber natural green inside and out.

The exterior is weatherproof, corrugated, material and antistatic NATURAL RUBBER.

The tube is also flexible in length.

Both ends consist of 100 mm long smooth sleeves without metal coils.

Suitable as a suction hose for various street sweepers.

Mastertubi.it/q?1594

Inner: Green, wavy, wear-resistant NR - natural rubber

Internal wear value according to DIN 53516:250 mm³

Heat resistance: -30° +85° C

Exterior: NR, black, wavy, printed fabric, anti-static, ozone and weather resistant

External wear value according to DIN 53516:60 mm³

Ends: 100mm smooth sleeves

External electrical resistance: CONDUCTIVE $R < 10^6 \Omega/m$

Tube produced only to order!
