

## VIBRATORS TUBE - delivery

HOSES › Flexible rubber hoses for suction of highly abrasive solids

Flexible rubber hose for concrete vibrators.

SBR black rubber with smooth underlayer, shore A85 hardness, reinforcement with textile inserts, smooth black SBR/EPDM rubber cover, resistant to abrasion and atmospheric agents.

### Use :

compressed air delivery into pneumatic and electric vibrators.

Structure suitable for keeping the tube section unchanged during use.

Excellent bending radius.

Operating temperature: -20° +70° C.
