

PROTECTIVE CAPS

HOSES › Hoses for Pneumatic Applications › POLYAMIDE TUBES - RILSAN PA11 - PA12

Plastic protective hose caps are perfect for protecting the ends of double- and triple-layer sheathed hoses. These hoses, made of different materials, may require additional protection at the ends where the hose is exposed and subject to abrasion.

We have various types of plastic caps available in packs of 10 and 20 pieces with sizes ranging from covering pipes with external diameters of 8, 10, 12 and 14 millimetres.
