

## EXTRAFLEX POLYURETHANE HOSE 1198 MDT

HOSES › Hoses for Pneumatic Applications › POLYURETHANE - ELASTOLLAN - EXTRAFLEX HOSES

Flexible linear tube in ether-based polyurethane with additives detectable by metal detectors.

### Characteristics

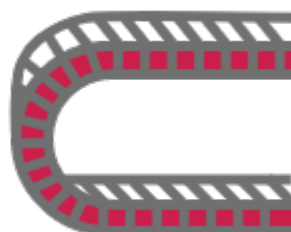

The use of metal detectors to detect potential contaminants in the product being processed is a common practice during food transportation and processing. Our R&D department, in collaboration with prestigious companies in the sector, has developed the **1198 MDT polyurethane** hose, which, thanks to the use of specific additives, is capable of being detected by inspection machines.
