

MULTI-TUBE EXTRAFLEX POLYURETHANE SPIRAL

HOSES › Hoses for Pneumatic Applications › SPIRAL AND/OR CONNECTED HOSES

Spiral multitube made with heat-sealed ester polyurethane tubes of different colors to allow simple distinction of the circuits. The best to keep the tube bundle compact and compact.

Made with two types of processes: with a proprietary welding technique that fixes the tubes permanently, while allowing the individual to be separated quickly and easily, and with the thermoforming process which exploits the ability of thermoplastic materials to "memorize" shape impressed when exposed to heat. Standard products consist of tubes with different colors and shapes defined as follows, but customized solutions allow you to choose colors in any combination, mix different diameters and combine them in almost any configuration.

On request: Tubes of different diameters, Tubes of different colors. Polyurethane tubes of various products. Sheathed and heat-welded electrical cables. Different tube arrangement configurations.

2-PIPE MULTI-TUBE

	OR external (mm)	OR internal (mm)	Spiral length (m)	Spiral diameter (mm)	Number Of coils	Meters linear (m)	Length operation
SMT98C2X4X2	4	2	XX	XX	XX	XX	XX
SMT98C2.5X4X2	4	2.5	XX	XX	XX	XX	XX
SMT98C2.7X4.3X2	4.3	2.7	XX	XX	XX	XX	XX
SMT98C4X6X2	6	4	XX	XX	XX	XX	XX

3-PIPE MULTI-TUBE

	OR external (mm)	OR internal (mm)	Spiral length (m)	Spiral diameter (mm)	Number Of coils	Meters linear (m)	Length operation
SMT98C2X4X3	4	2	XX	XX	XX	XX	XX
SMT98C2.5X4X3	4	2.5	XX	XX	XX	XX	XX
SMT98C2.7X4.3X3	4.3	2.7	XX	XX	XX	XX	XX
SMT98C4X6X3	6	4	XX	XX	XX	XX	XX
