

VERSILON GA HOSE in natural rubber

HOSES › Pipes for the pharmaceutical industry › RUBBER hoses for the pharmaceutical industry

Multipurpose natural rubber hoses

Made of natural rubber , the **VERSILON GA**

Hardness 40 Shore A, light brown colour.

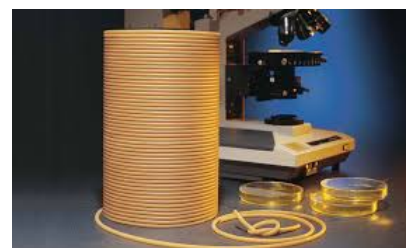

Provides excellent elasticity and resilience. Easy to fit to all types of connectors, it has latex-like properties and is preferred in most industrial applications. It can withstand moist heat sterilization. Typical applications include fluid transfer systems and all types of dispensing, including soap and detergents.

Features and benefits

- Excellent elongation >500%
- Good abrasion resistance

Typical markets and applications

- General dispensation
- Dispensing of soap and cleaning solutions
- Distribution of alcohol
