

HOSE PN

HOSES › Flexible pipes for ventilation or cold air extraction

Flexible hose in polyamide fabric with double PVC coating, with high mechanical resistance, with reinforcing harmonic steel wire spiral.

Application in the extraction of light dust, fumes, gases, including corrosive ones, connection of moving parts with fans, car washes. Smooth interior, light blue color. Axial compressibility 5:1.

Operating temperature: -20°C +90°C (+110° tips)

Reaction to fire:<100mm/mm DIN 75 200

Sizes of 10 meters (up to 20 meters on request) - 5 meters for diameters greater than 400mm
