

MULTIFOOD TUBE - AND MULTIPURPOSE

HOSES › Hoses for food products

Multipurpose hose suitable for the delivery or suction of food products.

Transfer of milk, wines, musts, fruit juices, water, beer, cider, vinegar and alcohol and generic fatty products.

- Smooth, odorless and tasteless white EPDM rubber underlayer to prevent bacterial growth, resistant to cleaning with detergents and sterilization at temperatures of 140°.
- Armor with braided synthetic wire and steel spiral embedded in the wall.
- EPDM cover in BLUE colour with canvas print, resistant to ozone, atmospheric agents and abrasion.
- MULTIFOOD-EG version with corrugated square "frecata" covering for minimum curvature radii.

Mastertubi.it/q?432

Operating temperature -40 + 140° C

Sterilization at 110°C maximum for thirty minutes

Operating pressure 10 bar - burst 30 bar

Maximum suction at 0.9 bar

Standards and approvals:

FDA title 21 art.177.2600 (f) for fatty foods, BfR, ADI free, DM 21/03/73, CE 1935/2004.

40 meter rolls

Connectable with fittings on request type CLAMP DIN GAROLLA - stainless steel FLANGES

Fixing fittings with cable ties, pressed rings, band-it tape
